## OUR NEW POLICE CHIEF

After two months of wrangling Tonopah has a new chief of police in the person of O. H. Smith, for the last year a deputy in the sheriff's office. The selection, which was made yesterday, should meet with the approval of all law-abiding citizens, and the Bonanza believes that it will. Rowdism will no longer be tolerated, wobblyism will no longer be preached at random, that strife and discontent may be bred in our midst. Safety to life and property against violence seems to be assured, and the man who desires to make an honest living is assured of full protection from Chief of Police Smith and his deputies. Mr. Smith has given his word that order must prevail in Tonopah during his incumbency as chief of police, and the Bonanza believes that he will make good these promises. He will gather around him as assistants men of sound judgment and backbone, who will assist him in enforcing the laws, and woe be unto the rowdy who attempts to start a rumpus.

We have had the spectacle of state police being sent to Tonopah to preserve order and to guarantee protection to our citizens; we have had the spectacle of officers refusing to do their duty; we have had the spectacle of a sheriff admitting he was not equal to the occasion; we have had the spectacle of a district attorney sitting idly by and saying that perfect order prevailed in this town, when as a matter of fact it was dangerous for a stranger to accept work in our mines. In Chief of Police Smith the Bonanza believes that the people of this town, through the county commissioners, have selected a man who will be found equal to any emergency, and that he will be able to cope with any situation that may arise. He is a man who will not need the assistance of state police in enforcing the laws of this town, because he is possessed of iron nerve, sound judgment and a willingness to go the limit in bringing order out of chaos, if such is found necessary.

## SHOP CRAFTS HEAD BLAMING RAILROADS

(By Associated Press) CHICAGO, Mar. 14.—Honest efforts by the railroads would have resulted in wage agreements without bringing the matter before the labor board, B. M. Jewell, head of the federated shopcrafts, told the board today, in continuing the presentation of evidence intended to prove his charges that the wage question was before the board illegally because conferences between roads and employees were improper.

(By Associated Press) LOS ANGELES, Mar. 14.—Deputy District Attorney Fricke resumed his opening argument today in the trial of Madeline Oberheim, charged with the murder of J. He said she had an excuse for every bit of incriminating evidence, but declared her explanations were not reasonable.

## LANDIS, FRIEND OF PAPER MEN, IS REMEMBERED

(By Associated Press) CHICAGO, Mar. 14.—Newspapermen are supposed to stand by and smile at happenings and people in a cynical manner, according to the popular belief. The men assigned by the Chicago newspapers to cover the federal building "beat," however, were a little bit different in the case of the retirement of Kenneth M. Landis from the federal bench.

On the famous jurist's last day in court the federal building reporters presented him with the following testimonial hand lettered around his photograph on a large plaque:

JUDGE LANDIS  
For newspaper men the federal building will not be the same after you have gone. You will take the life of the joint away with you.

The good opinion of newspaper reporters is seldom sought, perhaps, but few men can say, as you can, that their departure made the press room blue.

We've known you for a long time, and we'll miss you for a longer time. Not just because there is "copy" in your forthright way of doing things, but because we think you are a judge with the right kind of backbone.

GOOD LUCK.

It was signed by each of the reporters.

(By Associated Press) SANTA ROSA, Cal., Mar. 14.—Tramps these days are discarding their blanket rolls for suitcases. Tax Collector Virgil Butts, of Santa Rosa, declared here recently after driving to a tax collectors' convention in Redding.

Butts drove alone and chanced to pick up several men who were walking along the highway carrying suitcases or grips. (By Associated Press) INDIANAPOLIS, Ind., Mar. 14.—Isaias Moore's twelfth marriage was to take place in Minneapolis today, according to local authorities who arrested him here yesterday on charges of bigamy and embezzlement. ## HUDSON SHAFT SINKING MAKES GOOD HEADWAY

Engineers Estimate That On Two Levels Fully Half a Million in Ore Exposed.

Excellent headway is reported as being made at the property of the Hudson Mining company at Royston, where the incline shaft is being lowered from the 320-foot station. Since the contractors, Barber & Uhlen, started work three weeks ago, the incline has been sunk for about 50 feet and it is hoped to complete the first lift of 100 feet sometime during the latter part of this week.

It has not yet been decided whether any drifting or crosscutting will be undertaken, but this will be determined within the next few days. If the showing does not warrant this work at the present time, sinking will be continued, as it is the intention of W. H. Royston, the manager, to sink for at least 300 feet, and possibly farther, in order to pass the fault that occurred in the upper workings.

The outcome of developments going forward on the Hudson property will be watched with interest by all interested in the Royston district. In the event that the ore shoots are found in place at depth, then a new era will dawn for this mineral section, and the boom, which seems to have been nipped in its infancy, will break forth with renewed fury and the district become the mecca for big mining men seeking investment.

Rumor adds that France will recognize the existence of Syria as a sovereign state and will agree also to the constitution of a Syrian parliament and the establishment of a Syrian ministry.

"The French have made good," is the expression one hears everywhere in this country, where during the great war Jamal Pasha's reign of terror culminated in the hanging in Damascus of the leading 400 Arabs.

"In three years France has not only brought security but also prosperity to us," said the governor of Beirut when asked his opinion as to the French mandate. "The Turks left us dead and buried and the French simply pulled us out of the grave and gave us life. We owe all to them."

(By Associated Press) BERLIN, Mar. 14.—Germans are talking of abolishing crematories in order to save coal. Letter writers have been carrying on a campaign in the Berlin newspapers protesting against this method of disposing of the dead as a waste of fuel. A defender of cremation advocates doing away with crematories as a menace to the health of the people. He suggests that as Germany is short of farming land all these plots should be utilized for agricultural purposes.

## MODERN CRUSOE RESCUED WITH MAN "FRIDAY"

(By Associated Press) VALPARAISO, Chile, Mar. 14.—The rescue from an island in the South Pacific of Alexander Selkirk, the British mariner, around whom Daniel Defoe is said to have woven the tale of Robinson Crusoe, was vividly pictured to several hundred tourists, including prominent British and American residents of Valparaiso, on their arrival recently at Juan Fernandez—the original Crusoe island—250 miles off the Chilean coast.

The natives of Juan Fernandez, one representing Crusoe and the other his man Friday, clothed in the traditional goat skins and wearing long beards, pushed off from shore on a raft after they had sighted the "rescue" ship. A parrot and a goat were their only passengers and, as in Defoe's story, the raft was laden with fish, fruits and other island products.

Boarding the vessel the "marooned" pair were received with all honors by the captain to whom "Crusoe" presented his offerings. The passengers then took up a collection for poor children on the island.
